

nanocomposites synthesis structure properties and new - abstract nanocomposites a high performance material exhibit unusual property combinations and unique design possibilities with an estimated annual growth rate of about 25 and fastest demand to be in engineering plastics and elastomers their potential is so striking that they are useful in several areas ranging from packaging to biomedical applications, **materials an open access journal of materials science** - materials issn 1996 1944 coden mateg9 is a peer reviewed open access journal of materials science and engineering published monthly online by mdpi open access free for readers with article processing charges apc paid by authors or their institutions high visibility indexed by the science citation index expanded web of science ei compendex and other databases, **sol gel based materials for biomedical applications** - sol gel chemistry offers a flexible approach to obtaining a diverse range of materials it allows differing chemistries to be achieved as well as offering the ability to produce a wide range of nano micro structures, **institute of chemistry academia sinica yu tai tao** - organic materials chemistry and surface chemistry structure of self assembled molecular thin films development of organic electronic materials including electroluminescent materials and devices organic thin film transistor materials and devices organic memory devices, **review of bioactive glass from hench to hybrids** - the concept of bone regeneration is to use a scaffold that can act as a three dimensional 3 d temporary template to guide bone repair ideally the scaffold will stimulate the natural regenerative mechanisms of the human body, **student profiles iitb monash research academy** - she completed m sc from amrita university kerala and she won first rank in the university examination she did her m sc project at iit bombay under the guidance of prof debabrata maiti on the topic catalytic palladium nano particle prepared using sy nucelin amyloid template, **iron oxide nanozyme a multifunctional enzyme mimetic for** - ionzyme a novel enzyme mimetic ionzyme exhibits peroxidase like and catalase like activities under physiological reaction conditions the activities show typical catalytic features that are similar to natural enzymes including substrate and optimal ph and temperature
